Effective April 7, 2003, the Army Corps of Engineers assumed responsibility for maintaining the "Schedule K",Classification of Foreign Ports by Geographic Trade Area and Country from the Maritime Administration. The Schedule K lists the major seaports of the world directly handling waterborne shipments in the foreign trade of the United States, and includes numeric codes identifying these ports.

This information is used by the trade community to report foreign seaports of loading and unloading in U.S. foreign trade transactions. In addition, the port codes are used by the U.S. Customs Service for vessel movement reports. The ports are grouped according to the country arrangement in U.S. Census Schedule C, Classification of Country Designations for U.S. Foreign Trade Statistics, effective January 1, 2003. The Schedule K is available in code, name, and sort to search for or download codes.

In addition, Schedule K Codes for identifying inland origin or destination provinces and states in Canada and Mexico are available for view. These are the only Schedule K codes that do not represent seaport locations. These codes are not shown in the code, name and country sorts mentioned in the prior paragraph.

Any questions concerning the Schedule K files, or the validity of a foreign seaport name and its proper classification should be addressed to the Army Corps of Engineers.

FIRST QUARTER 2018 AMENDMENTS TO THE SCHEDULE

K Classification of Foreign Ports by

Geographic Trade Area and Country

2018 Edition

1. **CA:** Indicates a foreign port code that was not in the Schedule K file prior to the current quarter. New codes occur in both the "Record adds for Current Quarter" and "Record Changes between Prior and Current Quarter" sections.
2. **CD:** Indicates a foreign port code that was deleted from the Schedule K file starting with the current quarter
3. **RA:** Indicates a record that was not in the Schedule K file prior to the current quarter. They are located in the "Record adds for Current Quarter" section.
4. **RD:** Indicates a record that was deleted from the Schedule K file starting with the current quarter.
5. **NC:** Indicates sections with no cases for the Schedule K file for the current quarter.
6. **Schedule K Sections:** "Record Adds for Current Quarter" – See line item #3, "Record Changes between Prior and Current Quarter" – Records that have had either their country or port name changed, and "Record Deletes between Prior and Current Quarter" – See line item #4.
7. **Record Status Indicators:** **CA** = Code Add; **CD** = Code Delete; **RA** = Record Add; **RD** = Record Delete; **NC** = No Cases For Section (*Not CA, CD, RA or RD*)

PORT NAME	CODE	COUNTRY	CA	CD	RA	RD	NC
Record Adds for Current Quarter							
			○	○	○	○	◉
Record(s) Changed between Prior and Current Quarter							
Record(s) As They Read in Current Quarter							
			○	○	○	○	◉
Record Deletes between Prior and Current Quarter

Schedule K Classification of Foreign Ports

File Description:
Schedule K - Classification of Foreign Ports by Geographic Trade Area &
Country.

Abstract
The Schedule K lists the major seaports of the world directly handling
waterborne shipments in the foreign trade of the United States, and includes
numeric codes identifying these ports.

Source of Data
Surveys conducted by analysts from the Navigation Data Center.

Sponsoring Organization
US Army Corps of Engineers/CEIWR, Navigation Data Center.

Attributes
Geographic Coverage of Data: U.S. Coastal, Inland Ports and
Waterways First Developed: Prior 1976
Update Frequency: Ongoing
Number of Records: 4050
File Size: approx 3 million bytes
File Format: xls
Maximum Characters per Record: 83
Media: CD, Disk, Tape, Hardcopy
